

DOMESTIC PASSENGER JOURNEY PROTOCOL

- This work has been extensively informed by health and medical officers at airlines who have been working closely with Government authorities since the start of the COVID-19 pandemic.
- While industry-developed, the principles and protocol incorporate feedback and review from Government Departments including the Department of Health, and measures agreed to by National Cabinet on 8 January 2021.
- The measures outlined may be subject to State/Territory Public Health Orders.
- This work adopts a layered approach to risk reduction and utilises the Hierarchy of Controls framework that is being applied by the AHPPC (see opposite).
- The protocol draws on global frameworks including the joint IATA- ACI document *Safely Restarting Aviation* and ICAO standards for cleaning of aircraft.
- The protocol intends to complement existing jurisdictional arrangements and directions for public health and WHS, and other regulatory requirements.
- Clear, consistent communications are critical to increase public awareness of the risk reduction approach and continue to rebuild consumer confidence to travel.

*Updated to reflect the 8 January 2021 National Cabinet decision on the mandatory use of face masks.

	INFORMATION	SCREENING & IDENTIFICATION	PHYSICAL DISTANCING	HYGIENE/ CLEANING	PROTECTIVE EQUIPMENT
<p>PRE-DEPARTURE</p>	<p>Encourage use of COVIDSafe app</p> <p>Travellers check current travel advice</p> <p>Consumer safety/awareness</p> <p>Staff education on risk reduction & infection control</p>	<p>Enhanced passenger data collection for contact tracing</p> <p>Travel eligibility/Health declaration at Check-in (24hrs)</p> <p>Encourage use of Online Check-In</p>	<p>Schedule flights where possible to avoid terminal crowding</p> <p>Cooperation with social-distancing rules</p>		<p>public awareness advising the wearing of face masks is MANDATORY for all individuals entering and working within airport terminals*</p>
