PURPOSE

To consider and adopt the Municipal Fund Budget for the 2025/2026 financial year together with supporting schedules. This includes the imposition of rates and the minimum payments setting of elected members fees for the year and other consequential matters arising from the budget papers.

BACKGROUND

The draft 2025/2026 budget has been compiled based on the principles contained in the Shire of Leonora Council Plan 2025 - 2035.

COMMENT

The budget has been prepared to include information required by the *Local Government Act 1995*, *Local Government (Financial Management) Regulations 1996* and Australian Accounting Standards. The main features of the draft budget include:

- The budget has been prepared with a 3.5% rate increase. This aligns with the inflation index for 25/26, and while the Council Plan does have provision for a 5% increase annually to ensure continued sustainability, increases in property valuations meant the overall revenue with a 5% increase would be unjustifiable. Whilst the Shire faces significant capital expenses it is recommended a moderate approach to rate increases is taken given the current cost of living crisis.
- The recurrent operating budget includes an overall average increase in estimated expenditure of approximately 3.5% to the 24/25 budget and continues to focus on improved service delivery to the community. It should be noted that individual line items may vary from this based on specific factors affecting each of these.

SPECIAL COUNCIL MEETING MINUTES

- Employee Costs have a provision of 3.5% increase to salaries and wages, and the National Superannuation Contribution has been increased 0.5% to 12%. Overtime has been considered separately, and significant reductions have been actioned in the previous year, bringing employee costs down slightly. Training is being implemented across the board, with a focus on trainers attending Leonora rather than sending staff away, which has also helped bring employee costs down slightly. Individual pays are considered in accordance with the relevant award and individual performance. Non fiscal employee recruitment and retention measures will also be considered and will form part of the overall cost to the Shire.
- A capital works program totalling \$6,731,511 for investment in infrastructure, land and buildings, plant and equipment is planned as described below. A portion of this is carried over from the 24/25 budget.
- Land and buildings purchases of \$1,173,694 are provided that includes final payments for the ageing in place facility and Leonora Safe House, accommodation units, improvements/replacements at shire staff housing, finalisation of the 84 Tower Street Purchase, repairs to the Masonic Lodge and a VR trail at Gwalia.
- Plant and Equipment purchases of \$1,335,353 is included to purchase a mini excavator, replacement ride on mower, and rubbish truck, new street sweeper, light vehicle changeovers, point of sales & booking system, watercart & trailer, and a shire wide phone system. A proposed joint ownership arrangement for the rubbish truck with the Shire of Laverton is being developed. This will result in both Shire's saving an estimated \$250,000 in direct capital costs.
- Infrastructure 'Other' expenditure is \$2,445,233 for final payment on the swimming pool retiling, pool heating project and transformer for the rec centre security gates for the Shire, Museum and Depot, emergency washdown pad at the Waste Water Treatment Plant, finalisation of the CCTV security upgrade including 4 additional CCTV towers, new playground at the childcare centre, standpipe payment system, resurfacing and retic at the oval, further work on the airport upgrade and fencing and a retaining wall at shire houses.
- Capital Expenditure on Infrastructure Roads is \$1,777,231 for the Bypass road preliminary works, 2025/2026 Roads to Recovery Program and the Street Resealing Program.
- An estimated surplus of \$5,513,959 is to be brought forward from 30 June 2025. However, this is unaudited and may change. Any change will be addressed as part of a future budget review. The surplus includes the unallocated surplus from the 24/25 financial year.
- Capital income of \$614,000 has been estimated for trade-ins of vehicles, as well as the sale of two of our oldest graders, both grader caravans and the Grader Camp.
- Principal additional grant funding for the year is estimated from:
 - Roads to Recovery - \$1,577,230
 - Federal Assistance Grants - \$550,768 received 24th June 2025
 - Main Roads WA - \$257,750 Maintenance
 - Regional Road Group - \$438,507
 - Horizon Power - \$225,000 Towards transformer for EV Fast chargers

SPECIAL COUNCIL MEETING MINUTES

- The draft 2025/2026 budget continues to deliver on other strategies adopted by the council and maintains a high level of service across all programs
- Two new reserve accounts have been recommended for adoption:
 - **Eastern Precinct Reserve** for the purpose of "Funds to be used in relation to planning, development, execution and future maintenance associated with the Eastern Precinct"; and
 - **Bypass Reserve** for the purpose of "Funds to be used in relation to creating a new heavy access bypass road".
- Council are also to consider and adopt the below recommendations of Reserve Account movements as shown in below table, the focus for 25/26 being the Aerodrome Reserve, Eastern Precinct Reserve, and Bypass Reserve:

While no specific consultation has occurred on the draft 2025/2026 budget, community consultation and engagement has previously occurred during development of the Council Plan. Extensive internal consultation has occurred with all business units.

STATUTORY ENVIRONMENT

Section 6.2 of the Local Government Act 1995 requires council to prepare and adopt an annual budget for each Financial Year prior to the 31st August, or such extended time as the Minister allows, each local government is to prepare and adopt, (Absolute Majority required) in the form and manner prescribed, a budget for its municipal fund for the financial year ending on the next following 30th June.

Divisions 5 and 6 of Part 6 of the Local Government Act 1995 refer to the setting of budgets and raising of rates and charges. The *Local Government (Financial Management) Regulations 1996* details the form and content of the budget. The draft 2023/2024 budget as presented is considered to meet statutory requirements.

Section 67 of the Waste Avoidance and Resource Recovery Act 2007 enables a local government to impose an annual charge in respect of premises provided with a waste service by the local government.

SPECIAL COUNCIL MEETING MINUTES

Section 5.98 of the Local Government Act 1995 sets out fees etc payable to Council members.

Section 5.98A of the Local Government Act 1995 sets out fees and allowances payable to deputy Presidents or deputy Mayors.

Section 7B(2) of the Salaries and Allowances Act 1975 requires the Tribunal, at intervals of not more than 12 months, to inquire into and determine –

- the amount of fees to be paid to Council members;
- the amount of expenses to be reimbursed to Council members
- the amount of allowances to be paid to Council members.

Regulations 30-34AD of the Local Government (Administration) Regulations 1996 set the limits, parameters and types of allowances that can be paid to elected members.

POLICY IMPLICATIONS

There are no known policy implications arising from this report.

FINANCIAL IMPLICATIONS

Specific financial implications are as outlined in the body of this report and as itemised in the draft 2025/2026 budget attached for adoption.

STRATEGIC IMPLICATIONS

The draft 2025/2026 budget has been developed having regard for the Shire of Leonora's adopted Plan for the Future, incorporating the Strategic Community Plan and Corporate Business Plans.

RISK MANAGEMENT

This item has been evaluated against the Shire of Leonora's Risk Management Framework, Risk Assessment Matrix. The perceived level of risk is low prior to treatment and after adoption of the recommendations.

SPECIAL COUNCIL MEETING MINUTES

SHIRE OF LEONORA NOTES TO AND FORMING PART OF THE BUDGET FOR THE YEAR ENDED 30 JUNE 2026

1. BASIS OF PREPARATION

The annual budget of the Shire of Leonora which is a Class 3 local government is a forward looking document and has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996* prescribe that the annual budget be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 Leases which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this annual budget have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the annual budget has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

The local government reporting entity

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this annual budget.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 10 to the annual budget.

2024/25 actual balances

Balances shown in this budget as 2024/25 Actual are estimates as forecast at the time of preparation of the annual budget and are subject to final adjustments.

Budget comparative figures

Unless otherwise stated, the budget comparative figures shown in the budget relate to the original budget estimate for the relevant item of disclosure.

Comparative figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

Rounding off figures

All figures shown in this statement are rounded to the nearest dollar.

Statement of Cashflows

Investing and financing transactions that do not require the use of cash or cash equivalents shall be excluded from a statement of cash flows. Such transactions shall be disclosed elsewhere in the financial statements in a way that provides all the relevant information about these investing and financing activities.

Initial application of accounting standards

During the budget year, the below revised Australian Accounting Standards and Interpretations are expected to be compiled, become mandatory and be applicable to its operations.

- AASB 2020-1 Amendments to Australian Accounting Standards
 - Classification of Liabilities as Current or Non-current
 - AASB 2022-5 Amendments to Australian Accounting Standards
 - Lease Liability in a Sale and Leaseback
 - AASB 2022-6 Amendments to Australian Accounting Standards
 - Non-current Liabilities with Covenants
 - AASB 2023-1 Amendments to Australian Accounting Standards
 - Supplier Finance Arrangements
 - AASB 2023-3 Amendments to Australian Accounting Standards
 - Disclosure of Non-current Liabilities with Covenants: Tier 2
 - AASB 2024-1 Amendments to Australian Accounting Standards
 - Supplier Finance Arrangements: Tier 2 Disclosures
- It is not expected these standards will have an impact on the annual budget.

- AASB 2022-10 Amendments to Australian Accounting Standards
- Fair Value Measurement of Non-Financial Assets of Not-for-Profit Public Sector Entities, became mandatory during the budget year. Amendments to AASB 13 Fair Value Measurement impacts the future determination of fair value when revaluing assets using the cost approach. Timing of future revaluations is defined by regulation 17A of *Local Government (Financial Management) Regulations 1996*. Impacts of this pronouncement are yet to be quantified and are dependent on the timing of future revaluations of asset classes. No material impact is expected in relation to the 2025-26 statutory budget.

New accounting standards for application in future years

The following new accounting standards will have application to local government in future years:

- AASB 2014-10 Amendments to Australian Accounting Standards
 - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture
 - AASB 2024-4b Amendments to Australian Accounting Standards
 - Effective Date of Amendments to AASB 10 and AASB 128 [deferred AASB 10 and AASB 128 amendments in AASB 2014-10 apply]
 - AASB 2022-9 Amendments to Australian Accounting Standards
 - Insurance Contracts in the Public Sector
 - AASB 2023-5 Amendments to Australian Accounting Standards
 - Lack of Exchangeability
 - AASB 18 (FP) Presentation and Disclosure in Financial Statements
 - (Appendix D) [for for-profit entities]
 - AASB 18 (NFP/super) Presentation and Disclosure in Financial Statements
 - (Appendix D) [for not-for-profit and superannuation entities]
 - AASB 2024-2 Amendments to Australian Accounting Standards
 - Classification and Measurement of Financial Instruments
 - AASB 2024-3 Amendments to Australian Accounting Standards
 - Standards – Annual Improvements Volume 11
- It is not expected these standards will have an impact on the annual budget.

Critical accounting estimates and judgements

The preparation of the annual budget in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the financial report.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:

- Fair value measurement of assets carried at reportable value including:
 - Property, plant and equipment
 - Infrastructure
 - Expected credit losses on financial assets
 - Assets held for sale
 - Impairment losses of non-financial assets
 - Investment property
 - Estimated useful life of intangible assets
 - Measurement of employee benefits
 - Measurement of provisions

The Shire did not raise specified area rates for the year ended 30th June 2026.

*Rateable Value at time of adopting budget.

All rateable properties within the district used predominately for non-rural purposes are rated according to their Gross Rental Valuation (GRV), all other properties are rated according to their Unimproved Valuation (UV).

The general rates detailed for the 2025/26 financial year have been determined by Council on the basis of raising the revenue required to meet the estimated deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than general rates and also considering the extent of any increase in rating over the level adopted in the previous year.

The minimum payments have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of local government services/facilities.

SHIRE OF LEONORA NOTES TO AND FORMING PART OF THE BUDGET FOR THE YEAR ENDED 30 JUNE 2026

3. NET CURRENT ASSETS

(d) MATERIAL ACCOUNTING POLICIES

CURRENT AND NON-CURRENT CLASSIFICATION

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operational cycle. In the case of liabilities where the Shire does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire's intentions to release for sale.

TRADE AND OTHER PAYABLES

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the financial year that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

PREPAID RATES

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire recognises revenue for the prepaid rates that have not been refunded.

INVENTORIES

General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

SUPERANNUATION

The Shire contributes to a number of superannuation funds on behalf of employees. All funds to which the Shire contributes are defined contribution plans.

GOODS AND SERVICES TAX (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

CONTRACT LIABILITIES

Contract liabilities represent the Shire's obligation to transfer goods or services to a customer for which the Shire has received consideration from the customer.

Contract liabilities represent obligations which are not yet satisfied. Contract liabilities are recognised as revenue when the performance obligations in the contract are satisfied.

TRADE AND OTHER RECEIVABLES

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for grants, contributions, reimbursements, and goods sold and services performed in the ordinary course of business.

Trade and other receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing components, when they are recognised at fair value.

Trade receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

The Shire applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, rates receivable are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

PROVISIONS

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

EMPLOYEE BENEFITS

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the determination of the net current asset position.

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the determination of the net current asset position.

Other long-term employee benefits

Long-term employee benefits provisions are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

MATERIAL ACCOUNTING POLICES

CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are shown as short term borrowings in current liabilities in Note 3 - Net Current Assets.

FINANCIAL ASSETS AT AMORTISED COST

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

RECOGNITION OF ASSETS

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

GAINS AND LOSSES ON DISPOSAL

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

MATERIAL ACCOUNTING POLICIES

DEPRECIATION

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Major depreciation periods used for each class of depreciable asset are:

Buildings	20 to 50 years
Plant and equipment	5 to 15 years
Infrastructure - roads, drainage & footpaths	20 to 50 years
Infrastructure - other	15 to 100 years

AMORTISATION

The depreciable amount of all intangible assets with a finite useful life, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held for use.

The assets residual value of intangible assets is considered to be zero and useful live and amortisation method are reviewed at the end of each financial year.

Amortisation is included within Depreciation on non-current assets in the Statement of Comprehensive Income.

SHIRE OF LEONORA NOTES TO AND FORMING PART OF THE BUDGET FOR THE YEAR ENDED 30 JUNE 2026

12. PROGRAM INFORMATION

Key Terms and Definitions - Reporting Programs

In order to discharge its responsibilities to the community, Council has developed a set of operational and financial objectives. These objectives have been established both on an overall basis, reflected by the Shire's Community Vision, and for each of its broad activities/programs.

OBJECTIVE

Governance

To provide a decision making process for the efficient allocation of scarce resources.

General purpose funding

To collect revenue to allow for the provision of services.

Law, order, public safety

To provide services to help ensure a safer and environmentally conscious community.

Health

To provide services for community and environmental health.

Education and welfare

To provide services to disadvantaged persons, the elderly, children and youth.

Housing

Provision of shire housing and privately rented accommodation.

Community amenities

To provide amenities required by the community.

Recreation and culture

To establish and maintain infrastructure and resources to meet the recreational and cultural needs of the community.

Transport

To provide safe and effective transport services to the community.

Economic services

To help promote Leonora and its economic wellbeing.

Other property and services

To monitor and control operating accounts.

ACTIVITIES

Members expenses and other costs of the Shire that relate to the tasks of assisting Councillors and the public on matters which do not concern specific Council services.

Collection of Rates revenue, financial assistance grants for general purpose and interest revenue.

Supervision and enforcement of various local laws relating to fire prevention, animal control and other aspects of public safety including emergency services.

Health inspection and advisory services, analytical services, pest and weed control, and assistance to provide health initiatives.

Provision of support services for education through the Leonora Childcare Centre, and for the elderly, youth and disabled within the district for the betterment of the residents.

Provision of staff and residential housing.

Rubbish collection services and operation of waste services. Maintenance of cemeteries and public conveniences. Administration of town planning activities.

Maintenance of playgrounds, recreation centre and grounds and reserves. Operation of library and maintenance of heritage and history inventory.

Construction and maintenance of streets, roads, bridges, signage and footpaths. Cleaning and lighting of town streets. Depot maintenance. Airport operations.

The regulation and provision of tourism, area promotion and building control.

Provisions of private work operations, plant repairs, operation costs and all administration costs.
